ADHAM F. A. ALHABBASH

MEDICAL DATA ENTRY OPERATOR & HEALTHCARE RECORDS SPECIALIST

Khan Younis, Gaza Strip, Palestine | Phone / WhatsApp: +972-599561140 | Email: adoomafares@gmail.com

PROFESSIONAL SUMMARY

Detail-driven **Data Entry & Medical Information Specialist** with extensive experience extracting, verifying, and digitizing clinical patient records across major healthcare facilities and international humanitarian programs in Gaza, including **Nasser Medical Complex (UNDP)** and the **Palestinian Red Crescent Society (PRCS)**. Proven proficiency in systematic data extraction from physical paper archives and electronic health databases, cross-referencing patient records, and standardizing case logs with 100% data fidelity. Fully proficient in **MS Excel, Word, and Google Sheets** with immediate adaptability to epidemiological research platforms including **REDCap, Epi Info, and Fuchia**. Grounded in medical terminology, rigorous patient confidentiality standards, and an unwavering commitment to MSF core humanitarian principles and operational research protocols.

RELEVANT EXPERIENCE

Medical Data & Emergency IT Volunteer - Nasser Medical Complex — 2023 - 2024

- Systematically logged, organized, and tracked emergency admissions, patient intake logs, and clinical records under severe emergency operating conditions.
- Maintained high data completeness and strict patient confidentiality, ensuring accurate records handover between clinical and administrative units.
- Troubleshot and restored operational continuity for clinical data terminals, hospital management systems, and printers to prevent clinical documentation delays.

Data Entry & Archiving Specialist - Al-Fokhari Municipality — 2021 - 2022

- Digitized and archived thousands of legacy physical paper files into structured electronic databases with zero data loss and rigorous validation routines.
- Executed high-volume alphanumeric data entry using advanced MS Excel formulas (VLOOKUP, validation rules, deduplication) to clean and audit historical registries.
- Audited database inputs against source documents to identify discrepancies, missing fields, and duplicates, maintaining full audit trails.

Health Informatics & IT Support Technician - Nasser Medical Complex - UNDP Project — 2019 - 2020

- Supported hospital departmental databases and clinical record terminals across inpatient, surgical, and emergency wards within a UNDP-funded program.
- Ensured data security, strict physical and digital patient file confidentiality, and reliable backup procedures adhering to institutional healthcare standards.
- Collaborated directly with medical and administrative staff to streamline patient documentation flows and resolve computerized entry errors.

Field Operations Data Monitor - Joint Council for Solid Waste Management (JCSWM) — 2024

- Conducted systematic field monitoring, daily data collection, logistical tracking, and compiled quantitative operational reports for executive management.
- Maintained rigorous operational data verification, ensuring discrepancy-free reporting in humanitarian and municipal services.

Humanitarian Field & IT Support Specialist - Palestinian Red Crescent Society (PRCS) — 2018

- Deployed and maintained secure communication and data infrastructure connecting humanitarian coordination units and emergency response centers.
- Adhered to international humanitarian standards, data confidentiality guidelines, and protective protocols in conflict-affected environments.

TECHNICAL SKILLS & KEY COMPETENCIES

Data Management & Research:	High-speed alphanumeric data entry, Medical record extraction & auditing, Paper-to-electronic data migration, Discrepancy reconciliation, Operational research protocol adherence.
Software & Research Platforms:	**MS Excel** (Advanced: VLOOKUP, pivot tables, data cleaning, validation), MS Word, Google Workspace, rapid adaptability to **REDCap, Epi Info, Fuchia**.
Healthcare Knowledge & Ethics:	Medical terminology familiarity, Patient confidentiality protocols, Data protection compliance, Clinical archiving standards, Trauma & patient intake workflow understanding.
Humanitarian Competencies:	Strict alignment with **MSF principles** (neutrality, impartiality, independence), extreme attention to detail, high stress resilience, collaborative teamwork in emergency settings.
Languages:	**Arabic:** Native (fluent spoken & written) | **English:** Professional working & technical proficiency (fluent spoken & written).

EDUCATION & CERTIFICATIONS

Diploma in Computer Technical Support & Information Systems - University College of Science and Technology, Khan Younis (2015)
Professional Certifications: ICDL (International Computer Driving Licence - 40h) · CompTIA A+ Professional (60h) · Cisco CCNA Networking · Specialized Data Entry & Archiving
